- ❖ Most operating systems will have a viewer built in, but if you should need one, the URL below will lead you to a site to download a free viewer.

http://webinterstate.com/medimatrix/help/setup_dv.html

- ❖ To burn images to a CD, you will first need to select the icon to the right of “Zip and Download all DICOM images”. Once the download is complete, you can unzip/extract the files and then place them in to your CD burning program.
